Yanis MIRAOUI

London, UK | +33 7 68 31 13 64 | yanis.miraoui19@imperial.ac.uk | ymiraoui@student.ethz.ch

EDUCATION

Imperial College London & ETH Zürich — London, UK – Zürich, Switzerland
MSci Mathematics, expected grade: First — October 2019 - June 2023

Lycée Victor Hugo — Marrakesh, Morocco
High School Diploma, *Scientific, Mathematics*, High Honors, 19.21/20 — August 2017 - June 2019

LANGUAGES

French: Native | **English:** Fluent | **Spanish:** Fluent
Moroccan: Fluent | **German:** Professional proficiency | **Arabic:** Intermediate

PROFESSIONAL EXPERIENCES

Egoli Media — Remote
AI Researcher Intern — August 2021 - September 2021

- Researched and built the company's training dataset of athletes and sports
- Improved the company's AI system in identifying players, actions, brands, and other interesting moments within video content of football, tennis and cricket

Sopra Steria Group — Rennes, France
Machine Learning Engineer Intern — June 2021 - August 2021

- Led an entire machine learning project from conception to implementation in a context of Telecom trouble ticketing resolution
- Developed a full machine learning CI/CD pipeline with Google Cloud Platform integrating Continuous Learning
- Researched how new AI models and tools (BERT, Vertex AI, …) could reduce the resolution time of support tickets

Ecole 42 — Paris, France
Completed "La Piscine" Coding Bootcamp — August 2020 - September 2020

- Improved my coding skills with C, Shell, and Git by achieving multiple projects, allowing me to finish in the top 15% of the class
- Coordinated 5+ group coding projects with students from all over the world to build fundamental C# software

LEADERSHIP

CODE4GREEN Hackathon — Berlin, Germany
Winner — July 2020

- Developed a machine learning application using Python that can detect with satellite imagery the pollution routes and cycles to allow NGOs to better understand and target risk areas
- Implemented a tool to incentivize people in coastal areas to identify plastic accumulations in their communities and collaborate
- Presented in Berlin our Machine Learning optimization project to governments officials of the European Union and international firms which led to a fundraising of more than 3,000 €.

French Mathematics Olympics — Paris, France
Finished 6th — January 2018 - June 2018

- Selected as part of 3 students out of 100+ to work on complex mathematical problems
- Competed and finished 6th as part of the French Mathematics Olympics

PERSONAL PROJECTS

Cryptocurrency Trading Analysis — London, UK
Data Scientist — September 2020 – November 2020

- Aggregated, cleaned, and engineered the data and features of multiple datasets that contains data for 4 cryptocurrencies (Bitcoin, Ethereum, Ripple, Bitcoin-Cash) over a 7-year period (2013-2019)
- Developed a Linear Regression and Facebook Prophet model to predict the prices of cryptocurrencies and inform trading decisions

Ligue 1 Betting Market Analysis — London, UK
Data Scientist — November 2019 - January 2020

- Scraped, aggregated, and feature-engineered data related to the past Ligue 1 seasons from 3+ websites
- Used a Random Forest model to achieve ~70% accuracy in predicting the outcome of Ligue 1 games

CERTIFICATES

Microsoft Office Specialist: PowerPoint Expert

Coursera certificates: Data Science in Python; Python for Data Science and AI; Databases and SQL for Data Science; Mathematics for Machine Learning: Linear Algebra; Mathematics for Machine Learning: Multivariate Calculus; Machine Learning with Python

edX certificates: SQL for Data Science; Data Science: Linear Regression

SKILLS AND PERSONAL INTERESTS

Python, R, C, SQL, Git, Google Cloud Platform, Microsoft Office, G Suite, Adobe Suite

Interests: Volleyball, Soccer, Guitar, Artificial Intelligence, Formula 1, Geopolitics
